

75 London Wall

Year: 2026

Main Contractor: Multiplex

Architect: Orms

Stanta will be providing all SFS infill works to the upper levels of this new renovation project in the heart of the city. Stanta have worked closely with Grants Of Shoreditch to develop an SFS substrate design to interface with the Stone cladding facade and Windows on this ambitious new extension development. Works begin on site in mid 2026.
