

Coventry City Centre

Year: 2026

Main Contractor: Hill Partnerships

Architect: IDP Architecture

Stanta look forward to commencing installation of the SFS on this large scale regeneration of the City Centre in Coventry with key client Hill Partnerships before the end of 2026 following a detailed and successful BSR application worked on for the project by the Stanta design team in 2025. Our scope includes the supply & installation of over 22,000m² of SFS spread across 7 different buildings and features RCM Y-Wall Linings and Obex EPDM products.
