

Walton High School, Milton Keynes

Year: 2015

Main Contractor: Wates Construction

Architect: Jestico & Whiles

Following successful projects at Braintree and Ramsgate for Wates Stanta were appointed to install the SFS, boards, Insulations and board sealants etc to this modern high school development at Brooklands in Milton Keynes. The design of the building utilizes a mix of 100mm, 250mm & 300mm studs to create elevations of wide openings avoiding the requirement of secondary steel required.
